CHAIRMAN MESSAGE

It brings me great pleasure to highlight the accomplishments of our Bahrain Corporate Social Responsibility Society (BCSRS) over the past ten years. As an NGO, we have always believed in the importance of operating in a sustainable and socially responsible manner, and we are proud of the progress we have made in this regard.

One of our main priorities was building awareness for reducing carbon footprint and promoting sustainability in private sectors. We have invested our time in promoting renewable energy sources, such as solar power, and in reducing energy consumption. We also worked in promoting greenery and greenhouse development, as well as rehabilitating public gardens with actual community engagement with the private sector, for which we received recognition for our efforts in this area. Another area where we have made tremendous progress is in fostering diversity and inclusion among the workers in the private sector. We believe that a diverse and inclusive workplace results in better business outcomes, to which we have proposed numerous initiatives aimed at attracting and retaining a diverse range of employees in private sectors.

This includes implementing CSR training to all employees, establishing employee resource groups, and actively promoting the recruitment from under-represented communities. We have also committed to supporting communities in the Kingdom of Bahrain. This has included donating essential household supplies to local villages, charities, and non-profit organizations, as well as allowing non-employees to attend workshops and volunteer in giving back to the community, all through the five unemployed training centers we established around the Kingdom. Furthermore, we have established partnerships with local schools and universities to promote education, CSR curricula, and skill development.

In conclusion, I am proud to say that our society has made significant progress in Corporate Social Responsibility during the last decade. We have taken significant steps to reduce environmental impact, promote diversity and inclusion, support our communities, and enhance our supplier chain standards in the private sector. We acknowledge, however, that there is always more work to be done, and we remain committed to making further progress in these areas in the near future.

Khalid AlQoud
Chairman
Bahrain CSR Society

ABOUT THE SOCIETY

Bahrain Corporate Social Responsibility Society was established on 24 April 2011, under Resolution No. (7) for the year 2011 issued by H.E. Dr. Fatima bint Mohammad Al Baluchi, Minister of Social Development. On 26 July 2011, it elected its first Board of Directors during its first general assembly meeting.

Bahrain Corporate Social Responsibility Society (BCSRS) aims to raise awareness for the private sector such that their business approach takes into consideration the influence of a company's actions on society and the environment and seeks to create a positive contribution in these areas. When it comes to our society-focused efforts, we undertake initiatives that aim to address various social issues, such as poverty, environment, economy, culture, education, health, and human rights.

Some examples of our society-focused initiatives:

- 1. Community development programs:**
Companies can partner with local communities to develop programs that address specific needs such as education, healthcare, infrastructure, and economic empowerment. These programs can be implemented through funding, volunteering, and employee engagement activities.
- 2. Diversity and inclusion initiatives:**
Companies can create and implement policies and programs that promote diversity and inclusion in the workplace. This includes promoting gender, racial, and ethnic diversity, as well as supporting individuals with disabilities.
- 3. Philanthropic donations:**
Companies can donate a portion of their profits or resources to charitable organizations that focus on social issues. These donations can be directed towards education, healthcare, poverty alleviation, disaster relief, and other social causes.
- 4. Ethical sourcing and fair-trade practices:**
Companies can adopt policies that ensure their suppliers and partners adhere to ethical and fair-trade practices. This includes protecting the rights of workers, supporting local economies, and ensuring sustainable practices.

MISSION: To plan and implement effective CSR activities and projects through an inspiring partnership model and create a sustainable value for our local and regional communities.

VISION: A nationally and internationally recognized hub and network of leading CSR excellence in line with Bahrain's Economic Vision 2030 and Sustainable Development Goals 2030.

GOALS

- Build a distinctive partnership model of CSR.
- Strategically plan and execute innovative CSR-centric projects.
- Set a wide ground for participation channels to all CSR stakeholders.
- Share and raise awareness of best CSR practices.
- Support values of individual responsibility and altruism.
- Produce CSR-focused knowledge for scholars, leaders, and practitioners.

KEY PERFORMANCE INDICATORS

Number of beneficiaries: Track the number of people or communities we serve and measure the impact on their well-being.

Environmental impact: Measure environmental impact, such as carbon emissions, water usage, and waste generation, and work to reduce it.

Donor satisfaction: Measure donor satisfaction and retention to ensure ongoing support for activities.

Collaboration and partnerships: Measure the number and quality of collaborations and partnerships established to achieve goals.

Innovation and learning: Measure the number of new ideas or approaches adopted and the impact they had on its effectiveness.

Diversity and inclusion: Measure the reach and impact among diverse communities and work to promote inclusion in all activities.

VALUES

1. **Social and environmental responsibility:** Prioritize the well-being of our society and the environment in all its activities and decisions.
2. **Transparency and accountability:** Maintain transparency and accountability to stakeholders, including donors, beneficiaries, and the public.
3. **Collaboration and partnerships:** Value collaboration with other organizations and stakeholders to achieve goals and create a positive change.
4. **Innovation and learning:** Embrace new ideas and approaches, and continuously learn and adapt to improve effectiveness.
5. **Diversity and inclusion:** Value diversity and promote inclusion, ensuring that the activities and benefits reach all members of our society.

SUSTAINABLE DEVELOPMENT GOALS

UN SDG & OUR PROJECTS

**SUSTAINABLE DEVELOPMENT
GOALS**

WE SUPPORT UN SUSTAINABLE DEVELOPMENT GOALS

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

The SDGs build on decades of work by countries and the UN, including the UN Department of Economic and Social Affairs

- In June 1992, at the Earth Summit in Rio de Janeiro, Brazil, more than 178 countries adopted Agenda 21, a comprehensive plan of action to build a global partnership for sustainable development to improve human lives and protect the environment.
- Member States unanimously adopted the Millennium Declaration at the Millennium Summit in September 2000 at UN Headquarters in New York. The Summit led to the elaboration of eight Millennium Development Goals (MDGs) to reduce extreme poverty by 2015.
- The Johannesburg Declaration on Sustainable Development and the Plan of Implementation, adopted at the World Summit on Sustainable Development in South Africa in 2002, reaffirmed the global community's commitments to poverty eradication and the environment, and built on Agenda 21 and the Millennium Declaration by including more emphasis on multilateral partnerships.
- At the United Nations Conference on Sustainable Development (Rio+20) in Rio de Janeiro, Brazil, in June 2012, Member States adopted the outcome document "The Future We Want" in which they decided, inter alia, to launch a process to develop a set of SDGs to build upon the MDGs and to establish the UN High-level Political Forum on Sustainable Development. The Rio +20 outcome also contained other measures for implementing sustainable development, including mandates for future programmes of work in development financing, small island developing states and more.
- In 2013, the General Assembly set up a 30-member Open Working Group to develop a proposal on the SDGs.
- In January 2015, the General Assembly began the negotiation process on the post-2015 development agenda. The process culminated in the subsequent adoption of the 2030 Agenda for Sustainable Development, with 17 SDGs at its core, at the UN Sustainable Development Summit in September 2015.

Today, the Division for Sustainable Development Goals (DSDG) in the United Nations Department of Economic and Social Affairs (UNDESA) provides substantive support and capacity-building for the SDGs and their related thematic issues, including water, energy, climate, oceans, urbanization, transport, science and technology, the Global Sustainable Development Report (GSDR), partnerships and Small Island Developing States. DSDG plays a key role in the evaluation of UN systemwide implementation of the 2030 Agenda and on advocacy and outreach activities relating to the SDGs. In order to make the 2030 Agenda a reality, broad ownership of the SDGs must translate into a strong commitment by all stakeholders to implement the global goals. DSDG aims to help facilitate this engagement.

New lifeline

State-of-the-art centre for trafficking victims opens

VICTIMS of human trafficking in Bahrain have been thrown a lifeline thanks to a new residential safe home in North Sehla.

The centre, opened to assist women with a common bond under the patronage of King Hamad bin Khalifa Al Khalifa, has been established by Labour Minister Shaikh Khalid bin Ahmed Al Khalifa and the Ministry of Labour.

The centre, which will accommodate up to 10 women, is a state-of-the-art facility with a common bond under the patronage of King Hamad bin Khalifa Al Khalifa. It will be managed by the Ministry of Labour and the Ministry of Social Development.

The centre will provide a safe haven for victims of human trafficking, offering them a place to stay, food, and medical care. It will also provide them with the opportunity to learn a trade and find employment.

The centre is a testament to the Bahraini government's commitment to protecting the rights of its citizens and providing support to those in need.

BAHRAIN CSR AWARD

Corporate social responsibility is an essential building block of an organizations' annual business plans. It enhances the reputation and builds positive bridges to communities, customers, and the public at large—and in so doing affects the bottom line. The sweeping nature of social networking has only magnified the influence corporate social responsibility programs can have on brand reputation.

The key to the success of CSR is effective communications. In order to encourage corporates and business houses in Bahrain to effectively communicate their CSR initiatives, Bahrain CSR society will honor the most outstanding communications efforts powering corporate social responsibility and green initiatives.

Bahrain CSR Awards will be the industry's best showcase for the most powerful, impactful social responsibility and green campaigns. The finalists in the awards program set new standards of excellence and point the way for other organizations to follow.

The winners of the CSR Awards represent corporations, agencies, and nonprofits. They are the risk-takers who have taken tremendous strides and understand the important role CSR contributes to an organization's success.

BAHRAIN CSR AWARD CATEGORIES

Excellence in CSR-Community builder (individuals): This category encompasses a wide variety of corporate citizenship efforts, from prominent support for local causes to outstanding partnerships with national and international cause-related organizations.

Excellence in Community-Partnership with charity: This category comprises of those campaigns whose primary focus is forming/promoting a partnership for a social or community cause. These campaigns may also include promotion of a company's product, services, or brand while enhancing its reputation as a good corporate citizen.

Excellence in International CSR: The winning communication initiative in this category reflects an organization's efforts in working with the institutions in other countries to achieve its CSR goals.

Excellence in Environmentally Sustainable development: This category recognizes a communications strategy that focuses on an organization's environmental efforts as its focus.

Excellence in CSR communication: This category recognizes a company with a history of effective CSR communication success. This could be accomplished using both online and offline communication channels.

Bahrain Community-community social development program: An agency or organization that has incorporated the desire to promote the general welfare of people (for example, environmental, health, and educational issues) beyond immediate stakeholders into its overall business model.

Overall Excellence in CSR (SMEs): This category recognizes the company with the optimal overall CSR practices from small and medium enterprises in Bahrain.

Overall Excellence in CSR (NGOs): This category recognizes the company with optimal overall CSR practices from non-government organizations in Bahrain.

Excellence in Community-Voluntary service: This category recognizes an organizations new or ongoing volunteer program, which includes, the number of volunteers involved, as well as results of volunteer efforts.

Excellence in Workplace sustainable development: Recognizing a campaign or ongoing efforts within the organization which furthers achievement of the organization's CSR goals.

“

CSR isn't a particular programme, it's what we do every day, maximising positive impact & minimising negative impact
